LOCAL NEWS ITEMS

The Royal Rooms, near C.P.R. station, maid street, Vulcan. Rates 75c. and \$1.

Woman wants position as cook during harvesting and threshing. Enquire of the Proprietor of The Royal, Vulcan.

Mrs. F. L. Simington has gone on a trip to Armstrong, B. C., the town of her school days, and will visit other points in the Okanagan valley.

Pictures have been taken of the Vulcan telephone office and premises by a photographer who came from High River for the purpose. This place came into province-wide fame this week, and the staff are proud of the place, and desire photo record of its beauty.

Little has lately been said of the Vulcan auto camp, and perhaps it seldom gets a thought from our citizens, but the handy spot goes on doing business. On Sunday morning last the cottage and lot were filled to capacity with campers and cars, and Vulcan will be pleased if the town has contributed to the convenience of travellers who come this way.

Mr. G. W. Buck, of the local firm which bears his name, is home, returning from a delightful trip to the coast. It was what is known as buyers' week in Vancouver when a display of magnitude is made to promote the sale of made-in-Vancouver goods. A fashion-show is held in connection therewith. The combination is described by Mr. Buck as wonderful and beautiful. There was remarkable entertainment for the buyers, a feature of which was a banquet at which some seven hundred were in attendance. He had the pleasure of a visit with several of the colony of former Vulcan people now on the coast.

LOCAL NEWS ITEMS

Man or woman wanted, for general housework for a few hours every day except Sundays, at the Royal rooms, in Vulcan, Alberta.

Mr. and Mrs. Bert Williamson, Guthrie, Oklahoma, arrived in Vulcan on Wednesday, and will spend some weeks with their daughter, Mrs. Art Baptiste.

Mr. Les Middleton will this season be grain buyer at the A. P. elevator at Kirkcaldy. Mr. Middleton is known to everybody and knows everybody in the district and will no doubt get a fair share of the big business at this point.

Photos of the Blackie ball club found sale in Vulcan this week. Evidently some of the fans desire to know just what a real team looks like, or perhaps it is to be a model for a club that Vulcan might have in the coming year.

There is a paper in this country whose editor refuses to publish obituary notices of persons who, while living, failed to subscribe for the paper. He explains that people who do not take their home paper are dead, anyway, and their passing away has no news value.

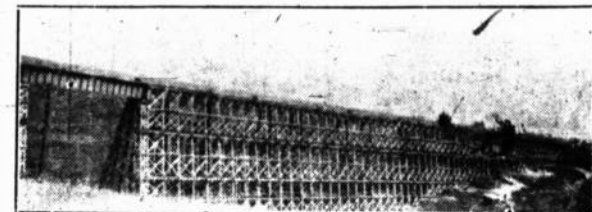

The Calgary papers give publicity to the apprehension of Donald Purdy, on a charge of forging three grain tickets on the National Elevator for the amounts of \$85, \$80 and \$72. Purdy, when brought to court pleaded not guilty, and asked for a remand that was granted.

he Advocate makes a plea for those who come to town with a team, who have a kick when they arrive and find that approach to the one-time post that remains on the main thoroughfare is barred by an accumulation of cars. Consideration is due to the last of the faithful horse.

Reckless driving and cutting corners in town should be stopped, otherwise accidents will follow. Turning in the street between intersections not even fair to brother motorists, and as for the pedestrian who attempts to cross the street, he takes chances on his life. There are still some "smarties" operating autos in this centre of activity.

For the past week we have experienced a mixture of both wet and dry with cool nights. Rains from a half hour to two hours have intermittently occurred and these in many instances have caused considerable "downing" of the heavy crop, which will require extra work in cutting.

Much is laying flat on the ground and from some heavy winds accompanying the rains, is in a twisted condition, which will cause some extra time and work to recover. It will all be garnered however, in due time but it is expressed that the low prevailing prices does not warrant an added expense to the work. That a much better crop in grade is forthcoming is generally admitted and this with the volume better and the acreage larger, will assure that the general results will prove more satisfactory than the crop of last year. Under ordinary weather conditions threshing will begin in about three weeks. A large number of harvesters are already noticed in the town seeking jobs and no delay or trouble is expected in this regard.

NEW C. P. R. BRIDGE AT CARMANGAY.

Through the courtesy of The Lethbridge Herald the illustration above is given place in this paper. The huge gang of men engaged in the construction of the new steel viaduct were kept busy over the week-end placing the last and largest span in position. Work will now go on without interruption until the bridge is completed. During the last two week-ends trains were re-routed via Macleod to allow the spans to be placed in position, but they have now resumed their previous schedule. This viaduct is being constructed by the Dominion Bridge Company and an immense amount of steel is going into it. The gap cut through the area west of the town by the Little Bow river was formerly bridged by a wood trestle.

LOCAL NEWS ITEMS

The making-over of an old house will shortly give an addition to desirable residences in Vulcan. Mr. Loiselle is making this improvement on a fine site in the south side.

The auction of horses at Vulcan on Saturday resulted in the sale of every head, in all about one hundred head. Auctioneer Rebbe conducted the sale, which was held at the stock yards on the C. P. R.

Mrs. A. T. Martin, of Vulcan, was one of the judges at the flower show and home cooking competition recently held at Brant. Mrs. Martin speaks highly of the exhibits in both departments of this exhibition of beauty and taste.

The dance on Tuesday night, under the auspices of the basketball club, was largely attended and all present had a happy time. Music was furnished by Len Davis and his orchestra, and it was like old times to many of the dancers.

Regular services at the church of Christ on Sunday, August 26th. We urge a full attendance at the Bible school at ten o'clock. The morning service will be supplied, as the minister will be at Broadway. The evening service at eight o'clock, sermon subject, "The Prodigal Son." Good music. The public invited. O. P. Burris, minister.

K. R. McLean, night specialist, 212 Herald Bldg., Calgary, desires to announce that he will make his monthly visit to Vulcan, at King's drug store, Saturday, September 1st. Divine services in the United Church, on Sunday, morning at 11 and evening at 7:30. Sunday school at close of the morning service. Services will also be held at Berrywater at 2, and Red Cross at 3:30.

"Enclosed please try to find check for subscription. If you find it, you're better than me. I ain't been able to. But I do like the paper, so keep it comin'." This from a subscriber, is worth while as an evidence of appreciation, and establishes, with the publisher's confidence that the cash will come along when the grain has been cut and threshing is over.

Several people of Vulcan and vicinity have at times watched with interest the construction of the new railway bridge at Carmangay, driving down to witness particularly the placing of some of the larger steel sections. Through the courtesy of The Lethbridge Herald an illustration of this bridge structure appears in this issue. The bridge is one of the bigger ones on the system of the C.P.R., and though it does not rank equal with that at Lethbridge, it has exceptional height and length.

The mistakes of the printer are so apparent that they sometimes prompt the comment of the wise ones, and the following answer of a country journalist is appropriate to a criticism for using poor grammar: "Now, I have three good reasons for this. In the first place, I do not know any better. Second, half of you would not understand it if I did use it. Third, if I did speak and write correctly, I might be managing some big New York paper at a large salary and you folks would lose the best editor in the country."

Mr. Edwin Southworth died at the family home in Vulcan, on Saturday night, August 18th. Deceased was a month short of forty-two years of age, and came to Canada when he was but sixteen. For some years he has been engaged in farming in this district, and by his industry and general disposition had established a place in the esteem of those with whom he came in contact, evidence of which was apparent during the period of his illness. On February 5th, 1924, he married Miss Emma Francis, the daughter in a well known family of the district. Two sons were born to the family, now aged two and a half years and one year, who will mourn with the mother the loss of a fine husband and affectionate father. The funeral was held on Monday, services at the church and the grave being conducted by Rev. J. N. Brunton, and interment took place at Vulcan burial park.

LOCAL NEWS ITEMS

The improvements at the Burrows' garage continue, and the finish delayed on account of the pressure of business necessitating the use of all available space.

St. Aldhelms Church services, Sunday, August 26th. Sunday school at 10 a.m., matins 11 a.m., evening 7:30 p.m. Service at Union Jack school at 3 p.m.

Carloads of brick, cement and gravel are being delivered at the site of the Legion memorial hall. The basement and foundation excavations have been completed, and workmen are busy making forms to be used in the running of the concrete. Soon the building will commence to rise. Lethbridge degree team and patrol of the Elks will visit Vulcan lodge, on Monday night, and perform the ceremonies in connection with the initiation of three members. The visit will also be made the occasion of a luncheon and smoker and general good time. This will be the first visit of Lethbridge Elks to Vulcan.

Vulcan knows "Slim" Haynes as the man who has given Staveley its baseball for so many years, and now this venerable gentleman has been visiting the towns with rinks to get an idea of a rink for his own little city that will have the best features of all the rinks. It is not hard to see hockey coming up at Staveley, and there is in indications a challenge to Vulcan, and the other boroughs. Right here is opportunity for a suggestion that there should be something doing right now in Vulcan if we are to have hockey this winter.

The sport column of a Calgary daily has published a statement from Jimmie Bennie, the boxing promoter, in reference to a match at Vulcan that was cancelled. He says that any time the promoter at Vulcan will give him a contract binding the match, he is willing to do business with them. Bennie also states that anything he can do to help boost the fight game in Vulcan will be gladly done by him, as he considers the Vulcan people are to be commended for trying to establish the sport there. Reads good. But the contract is the rub, and when the manager wants it all his own way and makes exorbitant demands, it does not go with the promoters at Vulcan.

Report in the daily papers of the itinerary of Miss E. Cora Hind, of the Winnipeg Free Press, an authority on crops, gives Vulcan prominence, as follows: "From Vulcan north to Arrowwood, over 40 miles, the crop is almost continuous, the only breaks being the summer-fallow fields and, in passing, the quality of farming in this section is of the very best, and these fallow fields are black and beautifully ridged against wind. Wheat predominates and stands are almost universally heavy, very tall and with long and well-formed heads. Fields are very free from weeds, and there is very little grain down, but these crops are very late, few fields showing any color. There are a number of excellent stands of oats, but these also are very green."

Manager Spears, who came up from the other side to direct the Blackie ball team, is remaining in Blackie, an indication that Blackie will be in the ball business again next year. Some guarded intimations made by Rex Dwigans, business controller of the club, add to the prospects of a team for the coming season. This reminds of the statement of the Claresholm paper that if Vulcan can be induced to come in a lively league would be the result. Last week reference was made in this connection to the come-back of baseball in Montreal after a lapse of years. The same plan would work here as was adopted there, where the chief business people backed the enterprise and made it go. Some of our new citizens might bring new life to the game, and there will be no difficulty as to the interest of citizens if a club of calibre is presented. It might be that interest created among the fans at the period of the world's series will start something.

LOCAL NEWS ITEMS

The travelling of the splendid new grade on Railway street, along elevator line, has commenced and the material that is to put the finish on what is to be the best thoroughfare in town is being delivered rapidly.

The Wednesday half-holidays are over and everybody is busy, but there is a public holiday coming up. It is Labor Day, September 3rd, and it will be remembered that the first and only game of lacrosse ever played in Vulcan took place a year ago on that day.

Vulcan has been promised the visit of Mrs. Conquest, talented as a platform speaker and devoted as a Red Cross worker. Vulcan has generally contributed generously to the Red Cross organization, and an appeal will again be made for support this year.

The second representative of the Vulcan branch of the Canadian Legion, appointed to attend the provincial convention at Medicine Hat, was Mr. Arch. Sheffield, who accompanied Dr. Carson. The convention is large and is proving to be one of the best ever held by the organization.

The new section of the Wolfe store block went into use on Saturday, and the same night was electrically illuminated for the first time, the particularly bright spot directing attention to the great improvements recently made. Attention will next be directed to the remodelling of the older portion of this place of business. Contractor Loiselle is doing the work.

"Stop the advt. in The Advocate, the house has been sold." These were the instructions from Mr. Frank Shaw, and have reference to the sale of his splendid residence property in Vulcan. The purchaser was Mrs. F. Nicholson, by whom the premises are already occupied. The house was erected but a couple of years ago, and several outbuildings have since been erected and the property otherwise improved. The location is on the corner of the block opposite the south end of the rink.

There was a fire in the country just out of town, on Saturday night. The barn on the Charles Robson farm, now operated by C. Underwood, was entirely destroyed, together with a quantity of harness and other contents. The origin of the fire has not yet been discovered by the reporter. The destruction of buildings by fire has not been common in the district, but lately there has been a run of three within a radius of ten or twelve miles. It is said that misfortunes do not come singly.

Reports of the terrible auto accident at Okotoks, in which an entire family of five were killed, made mention of the services of Mrs. Harry Wenger in rendering first aid in connection with the event. Mrs. Wenger was formerly a professional nurse and not so long ago a Vulcan girl. Mr. Wenger, who was also a resident here some time ago, was one of the first on the scene of the accident. Councillor Fred Simington, of Vulcan, viewed the wreck before its removal, and says that it can not be well described.

Vulcan telephone exchange has been awarded second place and second prize in the annual competition conducted by the telephone department. Judgment is made on the appearance of building and premises, and the general improvement yearly of both, and the attention given to equipment and tidiness of everything. Vulcan has always been close in the race, which extends over the whole of the provincial system, and citizens will share with the management and staff in the satisfaction of attaining to within one of the top. The reward is one for pride and industry on the part of the exchange staff, and both are required to give Vulcan the beauty spot that this office and premises now present.

One of the several men who come to Vulcan at times to check up on farming interests in this district is Mr. J. S. Maloney, of Rockford, Illinois. The editor had a chat with him when he presented payment for The Advocate, and the money was accompanied with compliments as to the excellence of the journal. Crops and conditions were the chief topic of conversation, and these were great in the county from which he comes, but in this country his property was in the trail of the hail, and this season insurance will take the place of harvest. The presidential election across the line was mentioned, and Mr. Maloney told of a straw vote taken by himself on the train coming up, and the count gave two to one for Hoover over Smith. An incident of the vote-taking was the discovery on the train of a woman chairman of a Hoover committee, who did not in any degree display secrecy as to her vote. Mr. Maloney travels some, and a discussion of the relationship of countries prompted the remark of his pleasure at seeing a statue of George Washington in one of the public places in England. He will return shortly to the States.

Do You Read the Newspapers?

Note the Sundays' toll of Accidents. Note the reports of Accidents on the farm, on the street, or while riding in automobiles. Who knows but an accident may be your lot; if so, you know that not only you but your pocket-book will feel the blow. So let us tell you about our Sickness and Accident policy. We "say it with cash" when you have none. See us to-day.

VULCAN ADVOCATE

VULCAN, ALBERTA

RUTHLESS DRIVING

After the accident in July at the Okotoks crossing, the engineer on duty on that occasion, refused to take the run again for the tragedy un-nerved him. If motorists would only take the precaution to slow down when approaching crossings, it would greatly relieve the engineers and save many lives that are ruthlessly destroyed all for the sake of speed.

ENCOURAGING EXTRAVAGANCE

A corporation that specializes in financing the purchase of pianos is threatened with liquidation and three piano factories in Ontario are bankrupt. Pianos were sold on the installment plan with a small initial payment, and the finance corporation did the rest, keeping a lien on the piano and insuring its obligation with an indemnity company, in the same way as other corporations finance the purchase of motor cars and trucks on the installment plan. In this way many pianos and cars are sold to people who cannot afford to pay for them, many of whom cannot afford to have them. There is a moral lurking somewhere in this commercial disaster. It has to do with individual extravagance and corporate encouragement of individual extravagance.

BEAUTIFUL WOMEN

The Chicago professor who has gained a little brief notoriety by his declaration that 90 per cent of the women are homely, probably is one of those odious "efficiency experts." They reckon everything in percentages. Whatever he is, he is woefully off his base in making such an assertion. Ninety per cent, indeed! Not even in Chicago, we venture to say, will so large a proportion of homely women be found. And in Alberta not 90 per cent nor nine per cent—no, it cannot be conceded that even one per cent of our women are homely. There are different standards of judging feminine pulchritude. Turks and Eskimos are said most to admire women who are, let us say, plump, well-rounded, moon faced. Other prefer the svelty type. Ideas concerning beauty vary. The Standard dictionary, defining "beautiful," says: "The definition of 'beautiful,' 'perfection of form,' is a good key to the meaning of 'beautiful,' if we understand 'form,' in its widest sense." It is submitted that under the terms of this definition (if we understand "form" in its widest sense) all women are beautiful. The dictionary goes on to say, however, that "there must be harmony and unity, and in human beings spiritual loveliness, to constitute an object or a person really beautiful. No attempt will be made to answer for the women of Chicago as to whether they possess the additional requirements of spiritual loveliness. But it can be said in behalf of the fair ones of Alberta without fear of successful contradiction, that they have this, as well as unity and harmony.

We respectfully request to enter this one for first prize in the lying contest. There was a prospectus once in which this paragraph appeared: "We haven't a mine that we know of, but we need your money to find out for sure."

No party in Britain will come out in favor of protection, but all parties favor "safeguarding of industries." That word "protection" appears to have a bad reputation.

GOSSIP AT OTTAWA

There seems to be a possibility of Hon. J. A. Robb resigning as Finance Minister and going into the Senate. If he wants to, he has earned it. He has been a great source of strength to the King government. He is candid and sincere, which are qualities often lacking in politicians, but never lacking in Statesmen. There are men in the government who would like to succeed him and the supposition is that Premier King is forestalling them by re-introducing H.M. Marler into politics. Mr. Baldwin, the member for Stanstead, is going to resign, and Mr. Marler has been nominated as Liberal candidate in that riding so that he will be available when Mr. King needs a new Finance Minister. At any rate, that is the guess the Ottawa Press gallery is making, and it has the advantage of probability.

BABY IN SUMMER

God's greatest gift to the world is a baby. He puts the care of it into the hands of the parents. It is their duty to prepare themselves for this responsibility. Hundreds of little lives are sacrificed every year, that intelligent care would have saved. Careful attention must be given to the health of the baby if serious trouble is to be avoided during the summer. At this season of the year, proper clothing and protection against sudden changes in temperature are points of the utmost importance in the conservation of child life. During the months of August and September the baby's life may be truly said to be in the hands of its mother. How the baby comes through the hot months largely depends on the care it receives. The breast fed baby has at least a six times better chance for its life than a bottle fed baby. Diarrhea and enteritis, the most frequent cause of infant deaths during the hot months, are rare among breast fed children. Breast feeding is the most important and the most effective preventive measure we have. A baby should never be taken off the breast except on the advice of a physician. The next best food for the baby is cow's milk. The baby's milk should be pasteurized. It is most important that the milk should be kept cold, on ice if possible. The advice of the physician should be obtained as to the proportion of milk, water and sugar to be used in preparing the feedings. All drinking water for infants under one year should be boiled for one minute. During the hot months it is important to adapt the baby's clothing to changes in temperature. Very hot days in Western Canada are usually followed by cool nights. Baby must be clothed to meet these sudden changes. Summer diarrhea is responsible for a high mortality among infants every summer. This condition is preventable. If diarrhea develops however mild, stop all food at once. Give castor oil and cool plain boiled water, consult a doctor. A baby is bathed every day and in very warm days sponging with water in which has been placed baking soda (one teaspoonful to the pint) will add to baby's comfort. Literature on care of the baby can be had from the Red Cross Society, 408 Civic Building, Edmonton, Alta.

LEVEL CROSSINGS

The terrible toll exacted at the Okotoks level crossing on Thursday evening last when an entire family of father, mother and three children lost their lives makes it all the more imperative that some strong movement should be taken to eliminate these death traps without delay. In this last tragedy it would appear from evidence that the C.P.R. engineer was entirely blameless for the train had slowed down and the brakes were applied, but too late to avert the accident. The driver of the ill-fated car evidently did not see the approaching train and ran right into it.

We understand the federal government, at its last session, opened the way for an improvement of crossing conditions when it raised the maximum for the elimination or partial elimination of graded crossings to the extent of \$150,000. This means that as its share, the Dominion government will grant up to \$40,000, while formerly it would not exceed \$25,000. Costs in removing such crossings are to be borne on the basis of 40 per cent. from the federal, 30 per cent. province and 30 per cent. from the railway company.

Another advantage of the amendment passed by the federal house is that it will now give consideration to projects for a partial diversion of traffic at these dangerous crossings. The province and railway companies should do their parts to take these highway danger points out of the realm of smash-ups and sacrificing of human lives.

Vancouver already claims to have exceeded Atlantic ports in its grain shipments. If so, it is a remarkable achievement. It is only a few years since grain commenced moving thru that port, and practically all of it comes from Alberta. This shows that this province is rapidly advancing in the production of grain. Vancouver will have to depend upon us for most of its export business in the future, and whatever expansion in agriculture takes place here will be the prime factor in Vancouver's port development.

Hon. P. C. Larkin resents Canada occupying a place in the order of precedence inferior to Venezuela, and is going to have a talk with the Premier about it. In the meantime he is investing in Canada will go on as if nothing important was being decided.

A South Dakota weekly newspaper has just completed publishing the Bible in instalments which it began 22 years and eight months ago. It might begin over, as the contents of the Good Book would be real news to many of the present generation.

The St. Catherine's Standard suggests that if taxes were payable about a week before the municipal elections more interest would be taken to curb, concrete and sewers. Also in the candidates.

The government deserves credit for dismissing a Judge whose conduct was such as to create scandal, but can we be sure that others are not being appointed who are unfitted?

No other country has any license to beat Canada at lacrosse.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Vulcan and at the office of the District Superintendent of Postal Service, Calgary, Alberta.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon on Friday, September 28th, 1928, for the conveyance of His Majesty's Mails, on a proposed Contract for a period not exceeding four years twice per week on the route REID HILL and VULCAN from the 1st January next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Vulcan and Reid Hill, and at the office of the District Superintendent of Postal Service, Calgary, Alberta.

GOVERNORS' GENERAL

Do you know the list of Governors General since Confederation? Here they are:

Viscount Monck, 1867-1868.
Baron Lisgar, 1868-1872.
Earl of Dufferin, 1872-1878.
Marquis of Lorne, 1878-1883.
Marquis of Lansdowne, 1883-1888.
Baron Stanley of Preston, 1888-1893.
Earl of Aberdeen, 1893-1898.
Earl of Minto, 1898-1904.
Earl Grey, 1904-1911.
Duke of Connaught, 1911-1916.
Duke of Devonshire, 1916-1921.
Baron Byng, 1921-1926.
Viscount Willingdon, 1926.

General Noble has learned that there's frost in other places besides the Arctic.

Cora Hind's report on Southern Alberta crops could hardly be better. She finds the grain on the whole in good condition, free from pests, and promising a high average per acre yield. That's fine information to spread over the country. What Miss Hind says about crops is accepted everywhere as trustworthy.

Some wag says the wet candidates in the coming U.S. elections will be smitten hip and thigh. The former would be a vital spot to smite.

NEW masterpiece Bodies by Fisher...

In one tremendous stride, McLaughlin-Buick has over-leaped old modes of car design and attained an order of beauty without parallel in the automotive world. To know the new style—to appreciate its superiority—simply see the 1929 McLaughlin-Buick with new Masterpiece Bodies by Fisher.

The world's foremost builder of automobile bodies has co-operated with the world's foremost builder of fine cars to produce the most beautiful creations ever shown. And with what results!

Dashing new lines, different from any heretofore known—longer, larger, more luxurious bodies, matchless in their grace and symmetry—gorgeous new color harmonies—the richest of upholstery and appointments—wider rear seats providing plenty of room for three adult passengers—an ensemble of beauty and luxury that has never been equalled.

New and deeper radiator lines—new chrome-plated head-lamps and cowl-lamps—new wheel and fender design—all combine to lend incomparable poise, fleetness and distinction.

The new McLaughlin-Buick Bodies by Fisher mark the supreme achievement of the body-builders' art. To see the 1929 McLaughlin-Buick is to see the most beautiful and fashionable car of the year, as well as the most capable and comfortable.

Visit the nearest McLaughlin-Buick showroom. See the 1929 McLaughlin-Buick today!

SPLENDID YEARS

A cycle of prosperous years are facing the livestock industry of Western Canada in the opinion of ranchers close to the situation here and in the great world markets. Cattle, for example, are fetching almost double what they were turned off for three years ago and hogs are going to be higher. Lambs and mutton are also strong and good, heavy, well-broken horses sell without difficulty.

A survey of the agricultural situation in the United States indicates that there is a big shortage of beef cattle making the Chicago market so strong in fact that Canadian producers find it profitable to ship there despite the two cents per pound duty imposed on fat cattle. Stocker and feeder cattle from the Canadian prairies are also wanted in the middle west and it would be no surprise to see a special revision made in the tariff to encourage a freer movement of feeder stock to the States.

The corn crop in the U. S. this season is a bumper one which means that feeder pigs will be wanted to absorb the excess stocks of corn. Canadian growers who have young pigs for sale ought to cash in on this stimulated demand across the line.

Few Canadian cattle are now going to the United Kingdom as prices there are depressed. In contrast, cattle exports from Alberta to the United States this year show an enormous increase. Four times as many cattle have been shipped across the line this year as last during the quarter ending June 30, figures released by the U.S. consular agency at Calgary disclose. In 1927 the number was 3,007 valued at \$97,328 whereas during the quarter mentioned the number was 12,172, valued at \$140,183.

FROM THE OLD HOME TOWN

A subscriber in far away British Columbia, who appreciates the home paper sends us this verse, with the hope that we will pass it on:—

Talk about your literature,
And papers up-to-date,
About the legislature
And doings through the state;
To me they ain't comparin'
Though I look the world around,
To the newsy paper
From the old home town.
Ma comes into the settin' room
And lets the dishes go,
And listens while I read about
The folks we used to know;
For births and deaths and land deals
And weddin's, too, abound;
All are mighty interestin'
From the old home town.
I know it ain't so classical
As these big dailies are
That tell about the king and queen
And latest movie star;
But just for my enjoyment
There's nothin' I have found
Like the little newsy paper
From the old home town.
—Walkerton Times

Shortly after the fawning season is over 12,000 reindeer will be herded from Alaska to the shores of Hudson's Bay, according to N. A. Branson of the Dominion Reindeer Company. This is due to the rapid increase of the herd of 1,249 animals started in Alaska thirty years ago. Progress will be slow, the herd travelling about ten miles per day. But, first, the shortest route must be found and charted.

GIRLS CLUBS MEET

First Constituency Conference is Held at Vulcan

The first conference of all the Girls Clubs of the Little Bow Constituency met in the Union Church Sunday school room, Thursday, August 16, 1928. The Merry Mixers, The Maple Leaves and the Peppy Pals acted as hostesses. A very enjoyable luncheon was provided by the hostesses to which between forty and fifty sat down.

The supervisors, Mrs. Wm. Arnett from Barons, Mrs. Brown from Kirkcaldy and Miss Dennison from Nanton, accompanied the girls.

Mrs. A. T. Martin, W.I. Constituency Convener, acted as toast-mistress and proposed a toast to the future success of the Girls' Constituency conference of the Little Bow, which was responded to by Mrs. Arnett. Mrs. Martin then called on Miss Elvessa Brown, president of the Maple Leaves Girls' Club, who, in a few well chosen words proposed a toast to our visitors which was responded to by Miss Olive Arnegard of Garden Prairie Girls' Club who had been responsible for giving the girls this opportunity of meeting together and getting acquainted with the girls of the different clubs.

Miss Edna Findlay of the Merry Mixers gave a reading entitled "Patsy" which was very much enjoyed by all. During the intermission the visitors were shown Vulcan, visiting the W. I. restroom and the municipal hospital, etc.

The business part of the conference was opened by singing O Canada. The report of the Garden Prairie Girls' Club was given by Miss Olive Arnegard. She showed us their year's program which was neatly planned, showing the subjects studied which ranged from Parliamentary Procedure to a Poverty Party.

Miss Coral Strang of Barons next favored us with a piano solo which was nicely rendered and received a hearty applause.

The report of the Maple Leaves was presented by Miss Irene Willet. She showed the different subjects studied at their meeting also the different ways they spent to make money and how they spent it.

Miss Dorothy Andrews of the Maple Leaves Girls' Club next gave an entertaining and pleasing recitation.

Mrs. A. T. Martin, Constituency Convener of W.I. welcomed the visitors and told them that this little conference of the Girls' Clubs was an experiment for the regular W. I. Constituency conference, the programme was so crowded that little or no time is allotted to the Girls' reports. But by having the Girls' Conference by themselves and appointing one official reporter for the Women's Conference it would save time and they would all be represented. Mrs. Wm. Arnett of Barons was appointed to give their report at the W.I. Conference to be held in Barons on August 31, 1928.

Mrs. Martin's address on "Our Girls" gave several examples of different types of girls. The clever girl who knows she is clever and shows off her cleverness until everyone dislikes her—the clever girl who knows she is clever but who is perfectly natural in her manners with the other girls and who becomes a favorite of them all. She compared the modern girl with the girl of the Victorian age and although times and customs have changed showed that our girls of today will compare favorably with the girls of any previous age. She asked the girls "to be good sports and take your share of the responsibility in both work and play."

The report of the Kirkcaldy Girls' Club was presented by Miss Gertrude Roebuck. It showed that these girls have not been idle, how they carried on their meetings, how they had earned money and how they spent it with a good balance in the bank.

Next a reading was given by Miss Hope Curtis of Barons.

The report of the Carmangay Girls was signed by Miss Greta Boyde, the president. This club has only been organized a short while, but they are enjoying the club and hope to go camping next year.

Mrs. Arnett described their trip to Waterton Lakes this summer. She also said the idea of our Girls' Club was to accustom them to speak in terms of "we" not big "I".

Mrs. B. Brown also spoke a few words of encouragement to our girls. Miss Edna Findlay of Nanton next presented the report of the Merry Mixers showing their methods of work and play.

A much enjoyable pantomime was presented by seven members of the Peppy Pals Girls' Club. Then we had a half hour for a contest on the different kinds of cake, prizes being given to the two having the most correct answers. Afternoon tea was served and God Save the King sung. Both visitors and hostesses (before dispersing for their different homes) expressed themselves as well pleased with the first Girls' Constituency Conference.

Among the four Alberta millionaires, Pat Burns, and R. B. top the list each with millions to their credit.

FILLS HIGH POSITION

Sam Savage of Calgary, Elected Grand Secretary and Editor—Will Fill Position with Credit

The sixteenth annual grand lodge convention of the B.P.O.E. which was held in Regina recently was one of the best conventions held for some years and should be productive of good results, is the opinion of Mr. J. S. Davidson, who represented High River lodge at that convention. The first day was taken up with appointment of committees and dealing with resolutions, while the second and third days were observed with election of officers, reports of committees and arrangements for Grand Lodge convention which will be held at Kamloops. The entire session was crammed full of business and no time was left to enjoy a fine program of entertainment arranged by Regina Lodge. The convention was held in the splendidly appointed new C.P.R. hotel "Saskatchewan." Recognition was brought to Alberta in the election of S. S. Savage of Calgary, to the combined office of Grand Secretary and editor of the Canadian Elk. Mr. Savage now fills a place vacated by two prominent Elks of Eastern Canada who have held the offices for long terms. D. C. Sinclair of Calgary, was elected one of the grand trustees. Gerald Sims of Ottawa, was re-elected Grand Exalted Ruler. The entire slate elected this year is considered very strong and every province is represented.

Mr. Sims' speech of explanation and acceptance was excellent and to the point and his election was unanimous.

Reports presented all indicated that Elksdom was in an exceptionally healthy condition with nearly 18,000 new members and 14 new lodges last year. Dr. G. D. Stanley of Calgary, delivered a rousing speech which was well timed and effective. There were 132 accredited delegates present and an attendance of 238. Grand Exalted Ruler Sims paid his respects to Calgary and High River lodges for their constructive participation in the proceedings of the convention.

Dependability

Firestone engineers found that the life of a tire depends as much upon the flexing life of the cords of the carcass, as upon the toughness of the tread.

To provide extra strength, stamina, and long wear, Firestone dips the cords of the carcass in a rubber solution. This saturates and insulates every strand of every cord, minimizing internal friction and gives thousands of extra miles. The Firestone Dealer in your locality will gladly serve you, and save you money.

WHEAT POOL

The Alberta Wheat Pool has issued the following statement with reference to rumors concerning the organization which have been in circulation in many newspapers for the past few weeks:

"Statements emanating from various sources to the effect that the Wheat Pool has an enormous carry-over from the 1927 crop, and is in a 'blue funk' because of the large volume of new crop to be delivered within the next few months are ridiculously inaccurate. Neither is the Wheat Pool thinking of running to cover under the protecting wing of the Government.

The estimates of the Wheat Pool carry-over have been placed in certain newspapers as that of anything up to 70,000,000 bushels. As a matter of fact the Wheat Pool carry-over this year will not be any larger than that of last year and possibly less.

It is true that the Canadian wheat crop will be large this year, but such ridiculous estimates as that of 700,000,000 bushels which was recently wired from Winnipeg to Chicago are entirely uncalled for and do a great deal of damage. As a matter of fact the crop may not exceed that of last year and outrageous estimates only tend to lower prices.

The Pool handled last year's crop in spite of the damaged condition of as large percentage of it, in a capable and efficient way. Pool members can rest assured that their organization is functioning smoothly, and that they will get the very best average price obtainable for their wheat. There is no reason for members becoming panicky.

The Wheat Pool is entering their second contract period in very considerable strength. Undoubtedly the membership will be increased very rapidly during the next few months. Five years of operation has given the Pool directors and officials invaluable experience and it is only reasonable to expect that each succeeding year more efficiency will be attained."

OIL PRODUCTION IN ALBERTA

The following comparative figures on petroleum production in Alberta during the month of May, 1928, and the corresponding period last year were compiled from statements submitted by operators to the Department of the Interior. There was a substantial increase in all grades.

	Naptha crude	Light crude	Heavy crude
May, 1928	36,705 (bbl.)	6,670 (bbl.)	832 (bbl.)
May, 1927	26,291	2,142	380

Secretary of State, Kellogg, is going to Paris this month to join representatives of fourteen other world powers in signing a treaty pledging them not to make war.

The only safe way to fly to the North Pole is with a tow line attached to a Russian ice boat.

SOW THISTLE

"The perennial sow thistle is the greatest menace to prosperity in Western Canada today. It has driven the farmers off their farms in parts of Manitoba. The same will happen here unless immediate steps are taken to control it."

Such are a few of the statements contained in a poster published by the provincial department of agriculture, calling the farmers' attention to the fact that this weed should be eradicated before it has the slightest chance to establish itself in Alberta. Two maps are shown on the poster, one showing where the weed had its start in 1900 in the south-eastern part of Manitoba and the second showing the alarming increase in infested areas by 1928.

A warning statement issued by the Manitoba weed commission is also contained on this matter to the effect that the thistle is spreading in all directions at the rate of 20 miles per year.

"The sow thistle is the worst thing that I have encountered in my agricultural experience," declared Professor W. L. Carlyle, manager of the Prince of Wales' ranch. Professor Carlyle, who has recently returned from a trip to the east, told the press that the farmers in the badly infested districts of Manitoba and Saskatchewan are desperate in their efforts to rid their lands of the menace and they are spending thousands of dollars in this direction.

So serious is the situation in Manitoba considered that, according to Mr. Carlyle, the government has passed a regulation that the roadsides must be plowed up where this weed puts in an appearance. South-eastern Manitoba seems to be the principal sufferer from this noxious weed, but parts of Saskatchewan and Alberta are slowly but surely being invaded by the crop killer.

"Now is the time to get after this plant," continued Mr. Carlyle, "and don't be satisfied with cutting it down. Pull it up, for it is a perennial and will only reappear next year if it is not done away with by the roots." He then went on to say that nothing would grow where the sow thistle was, and told of fields that he had seen that had been practically devastated by the effects of the plant. Mr. Carlyle also told of a quarter section farm that under normal conditions was splendid, but, due to the inroads made by the thistle, the land had been sold for \$800.

In giving an example of the serious manner in which farmers, bothered with the weed, treated the situation, Professor Carlyle related a conversation he had held with a Saskatchewan farmer, 72 years of age, who had been located for more than 46 years on the same section and a half of land. This farmer stated, according to Mr. Carlyle: "If I had any assurance that Alberta would be free from the sow thistle I would sell out and move up there."

In giving a history of this perennial plant in Canada, it is stated on the poster that it was discovered in the Hanover municipality, Manitoba, where it was brought by Mennonite settlers from Russia in about the year 1887. Today, Manitoba is badly infested and it has also gained a foothold in Western Ontario, Saskatchewan and Alberta. The estimated loss in Manitoba, due directly or indirectly to this weed, was over \$30,000,000 last year, it is further stated.

It is also declared on this warning sign that the government, towns and municipalities realize the seriousness of the situation and are working together in a vigorous campaign to acquaint people with the approaching danger of this menace. However, if the co-operation of all is not secured at once, in ten or twenty years' time it will be too late to do anything and a general infestation of the country will cost millions of dollars, authorities state.

In order that persons unfamiliar with the plant will recognize it when they see it, the provincial government is having a number of them potted and placed in prominent places. It will then become the duty of every individual to familiarize himself with the specimens exhibited and then wherever the thistle is found report it to the proper authorities. According to the Noxious Weed Act, the perennial sow thistle is in a class by itself and must be destroyed regardless of cost.

Four methods of eradication are given in detail on the poster and these include cultivation, digging out the roots, oiling, and hoeing. All of these methods are emphatic in their instructions not to let a single plant ever appear above the surface of the ground.

According to the government field supervisor of weed control, the sow thistle occurs in towns and cities, in vacant lots, on refuse dumps, lumber yards, in railway yards, in gardens, around stations, elevators and loading platforms. In 1913 the plant was reported at one place only, a short distance east of Medicine Hat, but now it is found in almost every district in the province.

The danger of the weed in Alberta is pointed out by authorities in that it is carried for miles by our high winds and then infests clean areas. Further, it thrives well in the fertile soil of this province.

The trouble with the sun the past few weeks is that it is not prodigal enough.

MILO NEWS

Mr. Alan Murray has arrived and will take charge of Pool elevator No. 1.

Carlyle Sutton is the new secretary-treasurer for the Milo School District.

Mr. Pat Coleman and family have arrived in town and will make their home here. Mr. Coleman is in charge of the Federal Elevator.

Milo is getting another new elevator and construction of it is now on. It will be another pool elevator and Mr. Norman McLeod expects to be in charge with Commodore Allen as his assistant.

Dr. Bows of Edmonton, visited Milo last week in connection with the feasibility of a sub municipal hospital. Further organization will have to take place before anything can be done.

Several new houses are under construction in Milo and district. Mr. Geo. Vennesland and Lewis Ivers expect to move into their new houses in a few days. Mr. John Martin is just having an up-to-date house finished also.

Seventy-five per cent of the farmers here are harvesting. A good many combines have been purchased and farmers all over the district expect to have them in operation shortly. At present those who have them are using the swather.

Mr. Marshall Gooch arrived in Milo from Chicago recently and has been having a very enjoyable time renewing old acquaintances. Mrs. Gooch and the two boys arrived earlier in the summer. They are visiting relatives and friends.

Milo and district is having almost a complete change of teachers this year. Miss Esther Ferngren who has taught at Lake McGregor for the past two years, goes to Blackie to teach Grades VII and VIII. Miss Ruth Ferngren will teach in Rocky Buttes and Miss Winnie Wainwright at Berrywater. Milo school will have Miss Ruth Rolston in the junior room.

On Thursday, August 16th, the United Church Ladies' Aid entertained in a most unique manner. Five homes were appointed to represent different countries. At 6 o'clock tickets were bought at the station and from there cars conveyed the guests first to the home of Mrs. Norum which represented Sweden. Seated on the verandah Mrs. O. Johnson was spinning yarn on a spinning wheel dated 1869. Swedish rugs and carved wood were on display. Here was served Swedish soup. Ireland was represented at the home of Mrs. Geo. Cameron and here the guests partook of perfectly delicious Irish stew. Mrs. Ferngren's home was the scene of Hawaii. Here the guests enjoyed salad while seated among palms and listening to Hawaiian guitars played by Mrs. Jackson and Albert Peterson. Scotland was represented at Mrs. Phillips' home. One had a choice of porridge and cream or oatmeal cakes, Scotch cakes and shortbread and tea. Lastly the guests hied themselves to the Japanese tea gardens at Mrs. Hulda Peterson's. Here the guests sat at quaint tea tables shaded with Japanese sunshades and were served by Japanese clothed girls. Afterwards an entertainment was held in the Majestic Theatre. Following is the program: Vocal solo, Mrs. Ed. Syngre; piano solo, Marion Coleman; Swedish song Leroy Peterson; patriotic drill, ten little girls; Hawaiian song, Mrs. Douglass; recitation, Eileen Brinker; vocal solo, Marshall Gooch; orchestra selection, Thelma and Esther Ferngren, R. Burdett, N. Jennijohn; a play "A Mistake," Misses Esther and Ruth Ferngren, Florence Cameron, Marguerite Jackson, Gladys Phillips.

HOW EDITORS GET RICH

Once again we are forcibly reminded of just how editors get rich. Here it is in a nutshell:

There is a child born in the neighborhood. The attending physician and nurse get \$10 each; the editor gives the loud-lunged youngster a great send-off and gets \$0.00. It is christened and the minister gets \$5, while the editor \$0.00. It grows and marries, and the editor publishes another long-winded, flowery article, and tells a dozen lies about "the beautiful and accomplished bride." The minister gets \$10 and a piece of cake; the editor gets \$0.00 and a request to carry the groom's subscription account another year. In the course of time she dies. The doctor gets from \$25 to \$100; the undertaker \$220. The editor publishes a notice of the death, an obituary two columns long, another column of letters of sympathy from various lodges and private parties, a lot of terrible poetry, and a card of thanks, all of which cost in actual labor \$32.50, for which he receives \$0.00.00. No wonder so many country editors get rich. Two men are setting out to row a boat from Boston to Saint John. Isn't it curious how men who don't have to work like to do it? observes the Toronto Star.

Four fresh forest fires were reported in Northern Manitoba on Saturday last bringing the total number to 19 fires. Rangers are confronted with a hazard and extra airplanes have been supplied by the R.C.A.F. Alberta is free from fires at this writing.

While grain prices have been slipping, livestock values continue to advance. Another proof that mixed farming is the best balanced system.

WITH the superb ease of a thoroughbred that takes all in its stride, the "Bigger and Better" Chevrolet never falters in the most trying circumstances—proves its mettle on the steepest grades and in the face of the greatest obstacles.

The ruggedness of Chevrolet construction alone makes these things possible. There is no part of the engine—of the chassis—of the body that was not designed primarily for rugged endurance—put to the test again and again on the General Motors Proving Ground.

As a result the "Bigger and Better" Chevrolet sturdily climbs without a halt, the steep slopes of the Rockies, and ploughs its way through the deep mud and gumbo of half-made prairie trails. In whatever conditions it may be placed, the splendid ruggedness of Chevrolet remains loyal in the service of its owner.

Its long life has become proverbial—the very name Chevrolet is a synonym for strength that endures.

The "Bigger and Better" Chevrolet—beautiful in form—luxurious in appointments—supremely rugged in construction—powered by the famous Valve-in-head engine—offers solid, enduring, trustworthy performance even under adverse conditions.

No matter what the roads—no matter what the weather—at all times the "Bigger and Better" Chevrolet stays on the JOB.

SPORTSMEN WILL HEED

A plea is made that all sportsmen refrain from shooting over points where ringneck pheasants have recently been released. On Sunday last 470 birds were liberated south of Calgary at points where they should rest undisturbed and not be frightened away to places more dangerous to their safety. In all 1600 birds were released this summer and it is expected in a few years they will multiply very rapidly and afford fine shooting for sportsmen generally.

The Federal Government and the Government of Manitoba have reached an agreement as to the method and basis of settlement of the question of the administration and control of the natural resources of Manitoba.

Airplane flights are being made between Winnipeg and Churchill in eight and a half hours.

REID HILL NEWS

We would again remind our readers that Mr. Ralph Easter will preach in the Reid Hill church Sunday morning, August 26 at 12 o'clock and at Prospect Slope at 3 p.m.

Mr. and Mrs. Paul of Lethbridge and Mr. Bisset of Oxford Nova Scotia, were Sunday visitors at the home of Mr. and Mrs. O. V. Hickman.

Mr. Thomas Underwood of Calgary, attended church at Reid Hill on Sunday. Mr. Underwood is chairman of the Alberta Baptist Mission Board and addressed the congregation briefly.

The wedding takes place on Wednesday afternoon at the home of Mr. and Mrs. Peter Bowie of their daughter Evelyn to Mr. George Lloyd Stafford of Turner Valley. We hope to have more particulars next week.

The trustees of the Reid Hill Community Hall will accept offers up to and including August 29th for a frame building 14x24, situated on a lot at Reid Hill. All offers are to be left with the storekeeper, Mr. E. Lockhart and the highest cash offer will be accepted.

Mr. and Mrs. Jack McKay and daughter, Ruth, returned on Saturday from a six weeks stay in Ontario. They report a delightful holiday and particularly enjoyed that part of their trip which was made by boat. Like all travellers whose residence address is Reid Hill they were glad to get home again.

What might have been a very serious accident happened to Mr. and Mrs. Gordon Stewart and family on Sunday evening. They were driving along the road east of Lomond about nine o'clock in the evening and met a Ford touring car which had only one light. Unable because of the glare to determine which side of the car the light was on and being already near the ditch on the right hand side of the road, Mr. Stewart held his course, but unfortunately the one light fooled him and the two cars collided. The Stewart coupe was overturned in the ditch and one of the children thrown completely out of the car and some distance away. Mr. and Mrs. Stewart had some difficulty in extricating themselves from their position and Mrs. Stewart suffered a painful injury to her wrist. It is noteworthy that the four men who occupied the touring car and who were responsible for the accident, showed no concern whatever for the victims of their carelessness and drove away leaving Mr. and Mrs. Stewart to get out of the ditch in the best way they could. Night driving is more or less dangerous at any time and should not be rendered more so by people who are too careless to keep the head and tail lights of their car in good working order. This is the first accident of a serious nature that has occurred in Reid Hill for some time or to Reid Hill people. We sincerely hope it will be the last.

KIRKCALDY NEWS

Mr. and Mrs. A. Roebuck spent a few days in Calgary last week.

Mr. and Mrs. Boose and friends have returned from a delightful trip at Banff.

Accidents are always happening but we are pleased to see that Dwight and Keith Tuttle are not seriously injured.

The many friends of Franklin Cool will be pleased to hear he has undergone his operation successfully, and is improving slowly.

Mrs. R. Robbie who has moved to Edmonton is spending a few weeks on the farm.

Mr. and Mrs. Fischer who have been visiting with Mr. W. H. Baldwin returned to their home on Tuesday.

Miss Dorothy Patterson of Lethbridge, and Miss Agnes Patterson of Champion, have been spending a few days with their aunt, Mrs. G. C. Mallory.

Mr. and Mrs. B. Baldwin have returned to their home in Saskatchewan after spending a few weeks with his brother, Mr. J. H. Baldwin.

A delightful afternoon was spent at the home of Mrs. A. J. Maisy who entertained for Mrs. Zigler of Ohio.

The Kirkcaldy Women's Institute are holding their regular meeting at the home of Mrs. H. F. Boose on Thursday, August 23rd.

ENSIGN NEWS

The Home Grain Elevator is being rebuilt, the capacity being twice the size of the old one.

Mr. T. Brown has gone to Medicine Hat to visit with his daughter, Mrs. H. Mackay.

Mr. and Mrs. W. M. McFadden of High River, visited at the home of Mr. and Mrs. Alex. Smith, Friday.

Mr. and Mrs. R. S. Calder from Kooskia, Idaho, are visiting at the home of her sister, Mrs. A. M. Meyers.

Mrs. Schultz and daughter, who have been visiting her niece, Mrs. J. Bradshaw, left Monday evening for Idaho.

A lumber yard has been started by Thomas Acton and Sons, who already have yards in Okotoks and Calgary.

The school house has been wired for electric lights which will make quite an improvement from gas lamps for social purposes.

Among the building activities at Ensign the Federal Grain Company are building a residence and garage for their buyer, Mr. J. Mullens.

On the 18th Mrs. A. M. Meyers and Mr. and Mrs. R. S. Calder motored to Staveland to visit with their friends, Mr. and Mrs. F. Snider.

On Thursday afternoon, the Catholic Women's League met at the home of Mrs. G. Marshall. Sixteen ladies were present. Subjects on help and aid to the sick, and making money for the league, were discussed. Tea and refreshments were served by Mrs. J. Masse and Mrs. G. Marshall.

An old time party was given at the home of Mr. and Mrs. J. Ruark in honor of Mr. J. Ruark's sister, Mrs. R. S. Calder from Idaho, also Mrs. A. M. Meyers. Quite a number of old friends from Staveland and district were among the many friends that were gathered for an enjoyable evening. A merry time was had by all the old timers. Refreshments were served by Mrs. J. Ruark.

A silver tea was given at the home of Mrs. J. Ferguson on Friday afternoon, about fifty ladies being present. A reading was given by Mrs. J. Kelly and a recitation by Mrs. J. Pearson, both ladies from Brant, also a solo was rendered by Mrs. J. Carrington, of Vulcan and a most enjoyable afternoon was spent. Refreshments and tea were served by Mrs. A. Smith, Mrs. W. Smith, Mrs. L. Chapman, Mrs. H. Parker, Mrs. D. Richmond, Mrs. J. Ferguson and Miss E. Brims. A silver collection was taken for the Ladies' Aid.

ITEMS OF INTEREST

The Calgary Normal school will open on September 4 and many young graduates of Southern Alberta schools are preparing to enter the provincial Normal College. They expect a very large enrollment.

In Nova Scotia the traffic law crossings must not travel faster than fifteen miles per hour, while their speed limit otherwise is 35 miles per hour.

The Dominion Bureau of Statistics reports that the number of births in Canada in 1927 was 233,605, and the number of deaths of 105,136, a net natural increase of 128,469. The net increase in 1926 was 125,296. It is at least satisfactory that the country is holding its own.

With the adoption of a contract, the election of provisional directors and the issuing of instructing them to proceed, immediately, with incorporation, the formation of the B. C. Egg and Poultry Co-operative Association—as the "egg pool" in that province will be officially known—was advanced another stage at a recent mass meeting at New Westminster and hopes were expressed that the pool will be functioning in the fall. The contract adopted is similar to that of the Prairie pools.

Canada, as one of the great wheat exporting countries is benefitting to the tune of millions of dollars from heavy wheat purchases by Russia. During the past week alone, according to Canadian grain experts, 8,000,000 bushels of foreign wheat have been purchased by the Soviet Government, the majority of it No. 3 Northern Manitoba. In addition to large supplies purchased for shipment from Montreal, large cargoes are going from Vancouver to Vladivostok.

ITEMS OF INTEREST

Seventeen power combines were sold by local dealers to our farmers this year, the demand being greater than the supply.

Over in B. C. the cudgels are being taken up in behalf of the crow. It is said they are the deadly enemy of the army worm and are destroying them by the million.

Forty thousand trout fry were delivered to the Claresholm Fish and Game Association and these were placed in the trout creek system, west of town under favorable conditions.

Every third person in the world who lights a match, lights one manufactured by the greatest monopoly in history—the International Match company of New York and Swedish Match company of Stockholm.

Canada's death rate from cancer in a registration area which did not include Quebec increased from 75 per 100,000 in 1921 to 87 per 100,000 in 1927. Cancer, as the Toronto Star points out, is moving up ahead of tuberculosis as a cause of death.

The triangular air service linking Vancouver, Victoria and Seattle is expected to be started immediately by the British Columbia Airways. The machine to be used has accommodation for twelve passengers and two pilots.

Auto drivers in Quebec found exceeding the speed limit will lose their licenses without appeal. This may well be followed in Alberta, for nothing can be too drastic for those who make themselves a menace to the general safety of pedestrians and to orderly motor drivers.

During the period from July 15th to 23rd, inclusive, 80 homesteads and 4 soldier grants were taken out at the Edmonton Dominion Lands Office, as compared with 37 homesteads for the similar period of last year. The figure in question constitutes a record since pre-war days.

For the first time in the history of Northern Manitoba, a woman has made a mineral discovery of major importance. Miss Kathleen Rice, graduate of the University of Toronto, and well known by pioneer prospectors in the northern mining field is the woman who has made a rich strike. The find, which is copper pyrite, was made near the northwest shore of Lake Wekusko. Several afflating offers have already been made for the claim.

At a recent meeting of ratepayers of the Brant School district, it was decided to enlarge the present school building at once to permit the teaching of Grade IX and X. Meanwhile the United Church building has been secured where these Grades will be taught until a new addition is built to the present school. The new teaching staff will comprise Mr. Charles Erikstrom of Airdrie, as principal, Miss Larson of Vulcan in charge of intermediate grades and Miss Lytle of Granum the junior grade. School will open on September 3 with an enrollment of fifty-five.

TENDERS for SCHOOLHOUSE

SEALED TENDERS will be received by the Board of Trustees of the Willard School District, No. 2176 at the office of the Secretary-Treasurer up to noon Sept. 4th for the erection of a one roomed frame school building after Plan Number C12. Plans and specifications may be obtained from Secretary-Treasurer on payment of a deposit of \$5.00. Plans must be returned within 24 hours, and deposit will then be refunded. A marked cheque for five per cent. of the amount of tender should be enclosed with each tender as a guarantee that same is bona fide. The lowest or any tender will not necessarily be accepted.

W. R. TOM,
Secretary-Treasurer.
